Terms & Condition

- In the Matrix Income, if an associate in your downline upgrades to a higher package before you do, matrix income from that package will be lost. Therefore, it's strongly recommended to upgrade to higher packages before your downline associates do.
- Example: If you are active on the \$10 and \$20 packages, and your downline associate is active on the \$10, \$20, and \$50 packages, you will only earn income from the \$10 and \$20 packages.
- The income from the \$50 package will be flushed out. "All income will be hold from current package only in your upgrade wallet for your next package upgrade, which you will need to initiate manually by clicking on claim button."
- Example: If an associate purchases multiple packages consecutively—such as \$10, \$20, and \$50—the income will not be held until the \$20 package is completed. However, starting from the \$50 package, income will be held and redirected toward upgrading to the next higher package
